

“The PEARS system is amazing, but the PEARS staff are really what makes the difference. They go beyond customer service and actually care that their system is the best it can be.”

Sandy Procter,
Assistant Professor, Kansas State University

Support

- Onsite and virtual training provided by experienced professionals
- Phone and email support with fast response times
- Up-to-date and detailed documentation
- Regular communication about new features and updates

Community

- PEARS is recognized nationally and relied on by a growing number of statewide Extension and nutrition education programs
- Advisory committee of program administrators meets regularly to share best practices and provide feedback about new features
- Collaborative approach leverages pooled resources and expertise to create a cost-effective and high quality system

KANSAS STATE
UNIVERSITY | Office of Educational
Innovation and Evaluation

About OEIE – Our vision is to be an innovator in the field of evaluation, providing unparalleled client-focused services to better position our clients to maximize educational and research program impacts.

We aspire to six core values as we continually strive to serve our clients:

- Be Innovative Problem Solvers
- Driven for Quality
- Exemplify Professionalism
- Impress the Client
- Teamwork Makes the Dream Work
- Cultivate Continuous Improvement

PEARS

PEARS

PROGRAM EVALUATION AND REPORTING SYSTEM

is a web-based data management solution designed to track efforts and assess impacts of statewide Extension and nutrition education programs. PEARS provides tools to plan, track, and evaluate programming, analyze data, and streamline state and federal reports. The system is supported and continually improved by a team of professional evaluators and web developers at Kansas State University.

PROGRAM EVALUATION AND REPORTING SYSTEM

Plan & Track

- Individual and organizational plans of work
- Custom surveys to evaluate effectiveness
- Professional development opportunities
- Direct and indirect education efforts
- Success stories
- Partnerships & coalitions
- Policy, system, and environmental change initiatives
- Ongoing enhancements to meet dynamic program needs

“PEARS is the best recording results program that I have used. It is completely user-friendly and has great support staff when needed.”

Kris Soper

Nutrition Educator, University of Wisconsin Extension

Manage

- Tools for organizational administrators
- Easily clean and verify data
- Workflow approval processes
- Annual extension agent performance assessments

Analyze & Evaluate

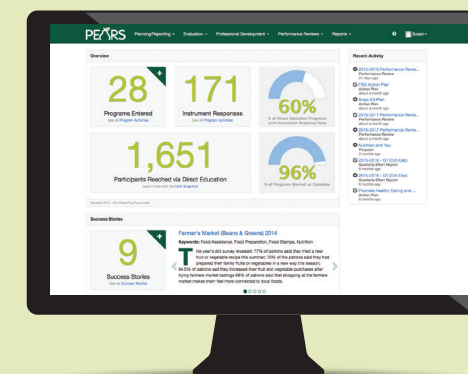

- Visual dashboards
- Automate state & federal reports
- Comprehensive exports with embedded codebooks
- Charts, graphs, and maps with ability to drill down into details
- Indicator metric tables for nutrition education

“PEARS has changed the way we program and evaluate! It has simplified the work! We are getting immediate results, which means our educators are reporting quicker, and we can look at all aspects and tweak programming as needed to make sure we reach EARS and all other evaluation impacts. It is amazing!”

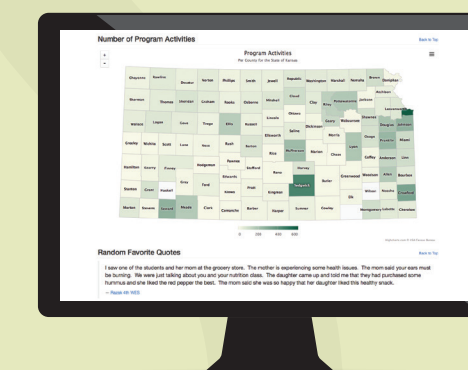

Heidi LeBlanc

Food \$ense Director, Utah State University

Visual dashboard provides a quick overview of progress.

User-friendly forms for guided data entry.

Geocoded data facilitates a wide variety of data visualizations.
